

Éducation *internationale* CÉF

Conseil des écoles fransaskoises (CÉF) is the only educational organization offering elementary and secondary education in Saskatchewan that is authorized to provide instruction leading to a bilingual (French-English) high school diploma.

This diploma certifies that the student can speak and write in French at a first language level, as well as being able to do the same in English. In addition to higher level language skills, students acquire competencies that are recognized by universities and required for admission to a university program, such as one with special requirements in mathematics and science.

CÉF explicitly pursues a mandate working closely with the community, engaging children and adolescents, with a view to ensure academic success for each student, the development of a Francophone identity, language skills and Francophone culture acquisition.

CÉF's virtual international education is aimed at grades 7 to 12 students and includes a preparatory year for the pursuit of university studies (after grade 12).

EARNING A DIPLOMA

Students who successfully complete their school journey at CÉF obtain a "Bilingual Francophone High School Diploma" which is recognized for the pursuit of higher level studies in both Canadian and international universities.

CÉF's diploma also certifies the bilingual competencies of those to whom it is granted (French and English).

CURRICULUM

The curriculum taught at CÉF schools is approved by Saskatchewan's Ministry of Education.

The seven compulsory areas of learning in the curriculum are:

- languages (French, English)
- mathematics
- sciences
- physical education
- health education
- arts education
- humanities and social sciences

Each one of the compulsory areas of learning includes specific knowledge, skills and values that are essential for every student, whether enrolled at elementary, intermediate or high school levels. Compulsory areas of study are therefore integrated into the school curriculum as a whole, from elementary to high school, until completion of diploma requirements.

INTERMEDIATE LEVEL STUDY PROGRAMS

Disciplines (Grades 7 to 9)	Number of hours taught annually
French (first language)	240
English (first language)	240
Mathematics	150
Sciences	80
Social studies	70
Health education	36
Arts education	36
Physical education	50
Career education	20
Practical and applied arts	40

HIGH SCHOOL LEVEL STUDY PROGRAMS

(Required criteria to earn the "Bilingual Francophone High School Diploma")

Grade 10	Grade 11	Grade 12
8 credits minimum	16 credits minimum	24 credits minimum (at least 5 must be from level 30 courses)
Compulsory courses		
<i>Français fransaskois A 10 and Français fransaskois B 10</i> English Language Arts A 10 or English Language Arts B 10 <i>Sciences sociales fransaskois 10</i> Sciences 10 1 level 10 mathematics credit	<i>Français fransaskois 20</i> English Language Arts 20 1 level 20 mathematics credit	<i>Français fransaskois A 30 and Français fransaskois B 30</i> English Language Arts A 30 ou English Language Arts B 30 <i>Sciences sociales fransaskois 30</i>
Elective courses: 2 credits from electives chosen among level 10 courses	1 level 20 or 30 science credit*	
	1 level 20 or 30 social studies credit	
	Elective courses : 4 credits from electives chosen among level 20 or 30 courses	
1 credit from the following : <i>Bienêtre 10, Éducation physique 20 or Éducation physique 30</i>		
2 credits from levels 10, 20 or 30 courses in Arts education or Practical and applied arts areas		

NUMBER OF CLASS HOURS REQUIRED ANNUALLY

The list of courses below provides an overview of the investment required in terms of number of student hours on an annual basis for various disciplines. Student may opt to follow an advanced path in the field of mathematics and science if they so wish, and later access university programs with prerequisites in these areas.

Disciplines	Grade 10 hours per year	Grade 11 hours per year	Grade 12 hours per year
French (first language)	200	200	200
English (first language)	200	200	200
Mathematics	100	200	200
Sciences	100	100	100
Social studies	100	100	
Health education		100	
Elective courses	150	150	150

ADDITIONAL PERSONALIZED SERVICES

International students enrolled in virtual education have access to personalized tutoring services, educational and career counseling services, networking activities, and extra-curricular clubs catering to a variety of interests.

Education is provided by trained and licensed teachers recognized by a professional authority.
